

Authors' Comments on Final Submission

June 16, 2022

Submission Number: 22-0227

Paper title: Robust Passivity-Based Control of Underactuated Systems via Neural Approximators and Bayesian Inference

We thank the Editor and the Reviewers for the thorough review of our work and the insightful comments. In our revised (second) manuscript, submitted May 18, 2022, we had addressed the reviewers' comments in detail. Following the second submission, both reviewers have found our answers and corresponding changes to the manuscript satisfactory. Hence, we have not made any changes from the last revised submission. To indicate that no changes were requested, we have attached the replies from reviewers as follows:

REFEREE #1, ID 65379

The revision is satisfactory. Authors made considerable efforts to improve the paper.

REFEREE #2, ID 65381

The authors thoroughly addressed my concerns, and I advocate for the acceptance of this paper.
